- Hardware Troubleshooting

WORK EXPERIENCE

Maman Group – Software Engineer

2024-2025

Developing and maintaining their inhouse desktop & mobile software solutions. C#, Entity Framework, MS SQL, Win Services, IIS

Abra – Software Engineer

2022-2023

Worked as a contractor at Elbit, developing and maintaining a desktop simulator system using C#, WPF, MVVM, Entity Framework, Git, and TFS. Collaborated with the backend team to ensure smooth communication between the front and back ends for new feature integration, and efficiently resolved development challenges under tight deadlines.

Log Systems - Senior Software Engineer

2018-2022

Developed desktop applications from scratch using C#, WPF, MVVM, Entity Framework, SQL Server, MySQL, and Web Services on Windows Server, integrating a phone directory with a CRM system.

EDUCATION

Technological College – Beer Sheba

Software Engineering Major

2015 – 2017

Graduation project: HR Employee Management system with features for work hour registration and salary calculation. Utilized a hosted MySQL database and included an optional mobile app for streamlined clock-in/out functionality.
